

# ALMORE

## binocular loupes

Almore's Binocular Loupes are manufactured with an adjustable anodized aluminum headband. Lenses are cut from ophthalmic glass and are replaceable. The telescoping lens bar allows for an extended working distance. The entire unit is *AUTOCLAVABLE*.

87001 Silver +3 (1.75x)      87000 Silver +5 (2.25x)      87002 Silver +8 (3.00x)  
 87003 Black +3 (1.75x)      87004 Black +5 (2.25x)      87005 Black +8 (3.00x)

### REPLACEMENT LENSES

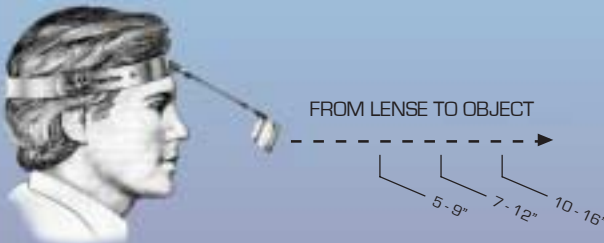

87007 +3      87006 +5      87008 +8

### PERSPIRATION BANDS

87024 Foam Replacement Bands (15)

### WORKING DISTANCES

The table to the right offers an approximation of working distance (focal length) relative to the magnification. Please note prescription lenses or reading glasses may increase or decrease an individual's working distance. The working distance is measured from the lenses, not from the eye.

DIOPTER	MAGNIFICATION	WORKING DISTANCE
+3	1.75X	10 to 16"
+5	2.25X	7 to 12"
+8	3.00X	5 to 9"

Actual Size

1.75x (+3)

2.25x (+5)

3.00x (+8)
